

What It Do (feat. Baby Bash)

[Samu](#)

Im tryna make your day, tell me if it's okay. (I hope it is, I really hope it is.) I'm finna make your night, let me know if it's alright. (I hope it is, said I really hope it is) I see this girl from bout a mile away. Tryna figure out if I should smile away. Now what would it take for me to do, For an opportunity to speak with you. (Speak with you) bae, I'm finna pick myself up to approach you. Get in my game ready to come closer. (come closer) Tryna get my words right. Say what I'm supposed to but baby damn you so fine. What it is? What it do? What's up? Hey little mama how it does, what's good? part in my lingo, but if you're single, I'm young willing and able ready to mingle. What it is? What it do? What's up? Hey little mama how it does, what's good? Part in my lingo, but if you're single I'm young willing and able ready to mingle. I'm tryna make your day, Tell me if it's okay. (I hope it is, I really hope it is.) I'm finna make your night, let me know if it's alright. (I hope it is, said I really hope it is.) Poppin tags, poppin bottles, poppin collars. Do it all, of course with the blessings of your father's. In the benz we can travel like a freebird. I've been lookin for perfection now I see her. So what it do? what's the biz? Mama what's the deal? Come get a dose of the real with a sex appeal. And let me turn your gray sky into sunshine. I'll be your soldier in the frontline. I'm tryna make your day, tell me if it's okay. (I hope it is, I really hope it is) I'm finna make your night, let me know if it's alright. (I hope it is, said I really hope it is)

Verse 3, lets talk a little bit more about you and me. If you fine, then I might and everything is close. and everything is smooth, my baby baby boo. Samu wanna tell you to break it down now. (break it down now) Girl tell me how you doin? By the way that body movin. (why you) Just let me know now, how this gon go down, and if you want to baby I WON'T BE YOUR WHOLE TIME. What it is? What it do? What's up? Hey little mama how it does what's good? Part in my lingo, but if your single, I'm young willing and able ready to mingle. I'm tryna make your day, tell me if it's okay. (I hope it is, I really hope it is) I'm finna make your night, let me know if it's alright. (I hope it is, said I really hope it is) :)
