My Treasure

Scott Wesley Brown

I don't need to follow any rainbow
Search the world to find my dream come true
I don't need a lucky star to guide me
I found my treasure in You.

I don't need to climb another mountain
Set my sail across the seven seas
The paradise that I was always longing for
Is found when You love me

And now my greatest joy is loving You
The hope I lost was found and made anew
Now my lonely days are finally through
I have found my life in loving You

I don't need to pray a prayer unanswered
Make a wish that will never, never come true
For I have found my every answer
My every wish is You.

And now my greatest joy is loving You
The hope I lost was found and made anew
Now my lonely days are finally through
I have found my life in loving You

I don't need to follow any rainbow
Search the world to find my dream come true
I don't need a lucky star to guide me
I found my treasure in You.
