

# Waves

## Marjorie Fair

Feels as if the things I thought about  
Silly boy, you're off to what I thought about  
In a way, the sun is setting on my side  
But it's alright unless it's gone  
Away from here for good[BRIDGE]  
But it's so hard, watching you fade away  
And it's too hard, watching you fade away[CHORUS]  
These are the ways that I talked about, silly boy  
Don't you forget about what I have said  
These are the ways that I talked about, silly boy  
Don't you forget about what I have said  
It's all in your headThe person that I thought I was  
Is something that I don't think is coming true  
And to say things that surround me now  
Are the same things that I seem to see right through
