We're gonna go where it is warm
We don't belong here, have a look
We're gonna go where it is warm
Leaving with everything you took We're gonna go where it is warm
We don't belong here, have a look
We're gonna go where it is warm
Leaving with everything you took Heading into the sun
Cos we will never belong
Heading into the sun
Cos we will never belong Heading into the sun
Heading into the sun
Heading into the sun
I thought I was the saddest 17 year old there was there was
there was
there was
I saw in the sky all the things that we had tried to fight
alright alright
are we alright? We're gonna go where it is warm
We don't belong here have a look
We're gonna go where it is warm
Leaving with everything you took We're gonna go where it is warm
We don't belong here have a look
We're gonna go where it is warm
Leaving with everything you took Heading into the sun
Cos we'll never belong belong belong
Heading into the sun Heading into the sun
Heading into the sun
