

# The Good Life

## Amber Pacific

I found a new life with you here  
A life that will burn bright through the years  
I can tell in the way you look  
The signals are so clear I want a big house in the hills  
But I don't need that life to make me feel  
Like I'm part of the crowd  
Who turns their backs to what is real Whoa, whoa  
Yeah, it's a good day  
I know you know  
To me you're everything Whoa, whoa  
Yeah, it's a good day  
And I feel my life is changing I found a piece of what was left  
A mark that runs deep within this chest  
I know in my heart what's best  
Is here in front of me I can just see us in the streets  
Beneath all the stars, just you and me  
Together as one we'll stand  
Each hand and hand, you're all I ever needed Whoa, whoa  
Yeah, it's a good day  
I know you know  
To me you're everything Whoa, whoa  
Yeah, it's a good day  
And I feel my life is changing And I feel my life is changing  
I can see my life is changing  
And I feel my life is changing Whoa, whoa  
Yeah, it's a good day  
I know you know  
To me you're everything Whoa, whoa  
Yeah, it's a good day  
And I feel my life is changing Whoa, whoa  
Yeah, it's a good day  
I know you know  
To me you're everything Whoa, whoa  
Yeah, it's a good day  
And I feel my life is changing And I feel my life is changing  
I can see my life is changing  
Yes, I know my life is changing
