

# Down River

M.I.A.

First of all, I wanna say  
I don't even know why you act that way  
My name is Maya and people always say  
I act kinda strange like a dooba weh I like fish and mango pickle  
When I climb trees them feet them tickle  
I'm broke this month didn't pay rent  
I had to jump town and my money's all spent  
I had to jump town and my money's all spent Rode the BMX, we walked through the bush  
The boys fight to ride it, but I just let 'em push  
Keith stole an egg from a lil' kookoo  
Kept it safe in his mouth, while he danced the jookoo jookoo There's only one ocean that got fish left  
One day we'll have to be a really good chef  
And I don't mean us in the bush making meth Boys, if you catch meth, you catch your death  
When I said that Keith sneezed and had a chick  
Broke the little egg in his mouth in little bits When it's hot we go down the river and swim  
When we go fishing we're catching a brim  
When the rivers high we jump off the bridge  
And then we go home and play some didge
