

Change The System

Charles Blackman - The Messenger

Reality.
Yes Man.
Heyyyyy.
Change the system, oh Lord
Change the system, oh Lord
I say change the system, Jah Jah
I say change the system, Father
I say change the system, savior
Oh Lord
I say you change the system, Almighty

Thy children are suffering
Oh Lord, oh Lord
Father change the system
For your children and everything in our country
Bribing and corruption are increasing everyday now Lord
Armed robbers in the streets
Shooting and killing the people, Lord
Confusion everywhere in our country now
I say you change the system
Oh Lord

Religious, tribal war
Everywhere in our country, Lord
Ethnic crisis
Everywhere in our country, Lord
I say change the system for your children
Oooh Lord
I say you change the system
Oh Lord

System of relief
Father you change it for us now
I say you give us another Moses
That will deliver your children from this ugly situation
I say change the system, oh Lord
I say change the system, Father
Rasta man say
Change the system, oh Lord

I say change the system, Almighty

What I am seeing in my country
Makes to be shading tears everyday
No more quality education
Hunger and starvation has taken all over the place now, Lord
Because the system is wrong, oh Lord
Change the system, oh Lord
For your children now

I say change the system, Almighty
I say change the system, oh Lord
Unemployment everywhere, oh Lord
The bad leaders are the capital bush something at the city
They embezzled our money
Develop another country
While their children are suffering everyday, Lord
And you are watching them
Change the system for us, Lord

Almighty
I say we don't know whom do we complain to
Is only you Father
I say change the system, oh Lord
I say change the system, Father, Almighty
Change the system, oh Lord
