

Give It Up

LCD Soundsystem

money, will make you feel real good
i'm always takin more than i know i should
you never give away for free
you're always stealin a little love from me
but you got to give it up
if you want to live it up
but you got to give it up
if you want to live it up money, will make you feel real good
you're always takin more than you know you should
you always take it
take it take it take it take it...but you got to give it up
if you want to live it up...check this out these are the parts of a terrible past
and these are the things we can live without...but you got to give it up
if you want to live it up...these are the parts of a terrible past
and these are the things we can live without...
