This Town Rocks

Saxon

This town knows how to rock
This town knows how to rock
This town knows how to rock
This town knows how to rockWe gonna send some knights
That gonna vandalize your soul
It does no good to sit there
Stand up and rock n' rollWe know what to do in here
We'll start a ballroom blitz
So come on down and rock with us
We'll blow this town to bitsWell, I ain't seen a town like this since 1974
I want so see you rock tonight, we gonna lock the doorsThis town knows how to rock
This town knows how to rock
This town knows how to rock
This town knows how to rockI've walked the streets of London
And I've been to Tokyo
I've seen the Coliseum
And I've grasped the Berlin WallI've heard the pipes of Scotland
Seen the eartbound snow
I've crossed the Mississippi
I've touched the AlamoWell I ain't seen a town like this since 1974
I want to see you rock tonight, we gonna lock the doorsThis town knows how to rock
This town knows how to rock
This town knows how to rock
This town knows how to rockThis town knows how to rock
This town knows how to rock
This town knows how to rock
This town knows how to rock
