Turn The Lights On

S Club 8

I love the way you are
Cruisin around like a movie star
You play my favourite song
I hear your voice
When you hum along
And I can feel
That my love for you is real

[Bridge]
There's no surprise
I want to dance with you
You're the dream come true

[Chorus]
Turn the lights on
You got that certain something
Play the music all night long
Turn the lights on
I gotta tell you one thing
You're the one I'm dreamin of

The way you more your feet
Shake and dance to the groovy beat
I've really got say
That what you give takes my breath away.
In your eyes
I see an angel in disguise

[Bridge and Chorus]
[Chorus and Bridge]
[Chorus to fade]
