

Only a Woman Like You

[Nat Stuckey](#)

Only a woman like you can make a man of me

For a man like me can't go through life alone

Only a woman like you can make a man of me

Without your love I'm weak but with your love I'm strong
Down every road I'll have to walk and every path I'll
have to cross

I'll need someone who'll be standing there with me

Someone who can take my smallest dream turn it into the greatest thing

Darling only you can make a man of me

Only a woman like you...

Without your love I'm weak but with your love I'm strong
