Chorus Of Angels

Haste The Day

Chorus of angels
Destroy my silence
That haunts me, it claims me
While darkness walks beside me
Chorus of angels
Destroy my silence
That haunts me, it claims me
While darkness walks beside me
Well, I saw the angels sing
Along to wake up the beautiful sleeping world
Their voices will rise to test the strength of man
Wake up the beautiful sleeping world
We will see the fire, the skies will open up
The clouds will burn red and our sins will forget us
And time will not shake us, our hearts are made of gold
These walls won?t overtake us, these walls won?t overtake us
I saw the angels sing
Along to wake up the beautiful sleeping world
Their voices will rise to test the strength of man
Wake up the beautiful sleeping world

We will see the fire, the skies will open up
The clouds will burn red and our sins will forget us
And time will not shake us, our hearts are made of gold
These walls won?t overtake us, these walls won?t overtake us
Well, I saw the angels sing
Along to wake up the beautiful sleeping world
Their voices will rise to test the strength of man
Wake up the beautiful sleeping world
Chorus of angels
Destroy my silence
That haunts me, it claims me
While darkness walks beside me
Chorus of angels
Destroy my silence
That haunts me, it claims me
While darkness walks beside me
Well, I saw the angels sing
Along to wake up the beautiful sleeping world

I saw the angels sing
Wake up the beautiful sleeping world
