

# Second Hand Car

Kim Churchill

[Verse 1]

Morning wanders in,  
taps on the window.  
Park on the street in a side of town  
that I've never seen before.  
Stumbled to the street,  
make a call on the payphone.  
Still half asleep, if you pick up now  
then I'll probably come home.  
Suitcase marry me,  
I'm addicted to no-one.  
And a part of me is here,  
another part of me is gone.

[Pre-Chorus]

Like heaven in a cage,  
don't need a world that doesn't change,  
and did I stumble?  
I'm a little bit in pieces,  
I'm a little bit in pieces.[Chorus]  
'Cause all I got,  
is a second hand car,  
and a letter from you,  
and an old guitar. And I want to stay,  
but I move so fast.  
Got a picture of you,  
and the second hand car.  
I'm a little bit in pieces.

[Verse 2]

Daylight switches on,  
And I chose to be lonely.  
The words you wrote,  
are echoing over everything I know.  
Seat-belt catches me,  
like a friend in the unknown.  
A souvenir of a love I keep,  
locked in my memory.[Pre-Chorus]  
Like heaven in a cage,  
don't need a world that doesn't change,  
and did I stumble?

I'm a little bit in pieces,  
I'm a little bit in pieces.[Chorus]  
'Cause all I got,  
is a second hand car,  
and a letter from you,  
and an old guitar.And I want to stay,  
but I move so fast.  
Got a picture of you,  
and the second hand car.  
I'm a little bit in pieces.[Verse 3]  
Every time I look ahead,  
every time I look ahead,  
high up on the past we shared,  
every time I look ahead.Every time I look ahead,  
every time I look ahead,  
high up on the past we've had,  
anytime I look ahead.[Harmonica Solo][Chorus x2]  
'Cause all I got,  
is a second hand car,  
and a letter from you,  
and an old guitar.And I want to stay,  
but I move so fast.  
Got a picture of you,  
and the second hand car.  
I'm a little bit in pieces.'Cause all I got,  
is a second hand car,  
and a letter from you,  
and an old guitar.And I want to stay,  
but I move so fast.  
Got a picture of you,  
and the second hand car.  
I'm a little bit in pieces.
