Carry My Cross

Third Day

As long as I remember I've been walking through the wilderness

Praying to the father

And waiting for my time

I've come here with a mission

And soon I'll give my life for this worldI'm praying in the garden

And I'm looking for a miracle

I find the journey hard but

It's the reason I was born

And can this cup be passed on?

Lord, I pray Your will be done

In this worldSo I'll carry my cross

And I'll carry the shame

To the end of the road

Through the struggle and pain

And I'll do it for love

No, it won't be in vain

Yes, I'll carry my cross

And I'll carry the shameI feel like I'm alone here

And I'm treated like a criminal

The time has come for me now

Even though I've done no wrong

Father, please forgive them

They know not what they've done

In this worldSo I'll carry my cross

And I'll carry the shame

To the end of the road

Through the struggle and pain

And I'll do it for love

No, it won't be in vain

Yes, I'll carry my cross

And I'll carry the shameThree more days and I'll be coming back again Three more days and I'll be coming back againYeah, so I'll carry my cross

And I'll carry the shame

To the end of the road

Through the struggle and pain

And I'll do it for love

No, it won't be in vain

Yes, I'll carry my cross

And I'll carry the shameYeah, I'll carry my cross
Yeah, I'll carry the shame
Oh, I will do it for love, yeah
Oh, I will carry my cross
I'll carry the shame
