

Let Me Know

Yeah Yeah Yeahs

I couldn't see, I couldn't hear
It shut me off when you were near
Like a cloud a dusty mirror
It disappears, you disappear All the sudden, all alone
I'm calling out, I'm calling Love's gonna let me know
Like the day you took me home
We counted every minute left to go
My love's gonna let you know Ooh, wah
Ooh, wah
Ooh, wah Time without you drags me down
It all feels right with you around
It all feels right with you around
Like the night we hit the ground And all the lightning sends a chill
Can't forget about you still
All the sudden, all alone
I'm calling out, I'm calling Love's gonna let me know
Like the day you took me home
We counted every minute left to go
My love's gonna let you know I'm calling, Love's gonna let me know
Like the day you took me home
We counted every minute left to go
My love's gonna let you know I'm calling out, I'm calling
I'm calling out, I'm calling
I'm calling out, I'm calling
I'm calling out, I'm calling
I'm calling out, calling out
