

Rewind

Stereophonics

It's your time
It's your day
It's never too late
To change lanes
How's your life?
How's your place?
Was it where you wanted
Your head to lay?

But wait, you can breathe
You can see what I can see
Don't waste your time
You can't make back

If you could rewind your time
Would you change your life?

Do you like you?
Do you love your wife?
Or did you pick what
You're told was right?

Dream and be
What you feel
Don't you compromise
What you wanna be

'Cause change is okay
What's the point in staying the same
Regrets, forget what's dead and gone

If you could rewind your time
Would you change your life?

If Jesus rode in on a camel today
With your cross on his shoulder
Time to take you away
Have you done all you wanted?
Are you happy and warm?
Do you miss someone special

You don't see anymore?
Have you blood on your hands?
Do you dream of white sands?
Can you sleep well at night?
Have you done all you can?
The place I was born in
Stays crooked and straight
I see innocent blue eyes
Go blind everyday

Rewind your time
Would you change your life
Today?
