Make a Baby

Raheem DeVaughn

How about you and I make a baby?
How about you and I make a baby?
How about you and I make a baby?
How about you and I make a baby?Well, I'm ready baby; it's time
And now that I know your status
And You know mine
Well, I'm trying to plant my seed that grows
But tonight, tonight I plan to fertilize it
And overstand, tonight we'll bring real destiny
Tonight we'll bring forth family
Baby so how 'bout you.....How about you and I make a baby?
[I want you to love my baby]
How about you and I make a baby?
[How about it baby?]
How about you and I make a baby?
[Make a baby]
How about you and I make a baby?Just think we made it
A boy with swagger like mine
And to be sure let's go all night
And if it's a girl like her mama she gonna be so fine
Enjoy the best sex you ever had
And I won't be no dead beat dad
Shoot!
Tonight we even might make two
Twinny-twin-twins! [Oh yeah!]
Tonight I thank my Majesty
For blessing me with you [You]
So how about it baby?How about you and I make a baby?
How about you and I make a baby?
How about you and I make a baby?
How about you and I make a baby?I wanna rub your belly and watch you sleep
I wanna rub your feet
I wanna feed you fresh mango at four in the morning
And when you have the weirdest cravings I'm ready
I want you to have my babyHow about you and I make a baby?
How about you and I make a baby?
How about you and I make a baby?
How about you and I make a baby?If it's a boy probably have swagger like mine
A girl like her mama she could be so fine; so fine

Say you're ready and I'm ready to make a baby
Say you're ready, you're ready, you're ready, you're ready, you're ready baby
