

Free up Your Mind

Rebelution

Here I am, close to the edge
Fear I might snap, yet I'm free to ascend
Free up your mind, this is mine to defend
Wash them away, got my demons ahead but We'll burn them out, watch them vanish away
And celebrate when the fake start to fade
We'll move along to the brightest of days
Won't hesitate, watch me rise, elevate Gotta free up your mind, free up your mind
Better free up your mind, free up your mind
No time to waste, better free up your mind
Gotta free up your mind, free up your mind
Better free up your mind, free up your mind
Wash them away, gotta free up your mind Here I am, clear as the day
Strong as my soul so I won't be afraid
Drive them away is the thought in my brain
Still I remain, they all evaporate so We'll burn them out, watch them vanish away
And celebrate when the fake start to fade
We'll move along to the brightest of days
Won't hesitate, watch me rise, elevate
Gotta free up your mind, free up your mind
Better free up your mind, free up your mind
No time to waste, better free up your mind
Gotta free up your mind, free up your mind
Better free up your mind, free up your mind
Wash them away, gotta free up your mind
Gotta free up your mind, free up your mind
Better free up your mind, free up your mind
No time to waste, better free up your mind
Gotta free up your mind, free up your mind
Better free up your mind, free up your mind
Wash them away, gotta free up your mind
