Take Me Through The Night

Msg (michael Schenker Group)

Hope the circle won't be broken
By the way things have to be
Cause I don't really think you know
What you do to me
Well it's kinda like a movie
That you've seen so many times
Can't get you outta my mind

Take me through the night
The lonely, lonely night
It's a thing I only live for
Another chance to make it right
Take me through the night
Take me through the lonely, lonely night
A dream I've always wished for
Hope it's alright (Hope it's alright)

Knowing how your feelings were
I had to say goodbye
We had a magic
That you can't describe
A dreamer's world we lived in
Of memories I can't forget
Let me dream of you tonight

Take me through the night
The lonely, lonely night
It's a thing I only live for
Another chance to make it right
Take me through the night
Take me through the lonely, lonely night
A dream I've always wished for
Hope it's alright

Take me through the night
The lonely, lonely night
A dream I've always wished for
Take me through the night
Hope it's alright
Gotta take me through the lonely night
