Sick of You (Rudedog Remix)

The Scheme

V1I don't really need this,
it's bringing me down down down,
no I don't wanna hear this,
the moment's gone,Could it be true all is said and done,
could you be holding the smoking gun,
out of my head and my heart is numb,(Chorus)No I don't wanna fight with you and watch you melt into the blue,
I'm not gonna drown drown drown, going to higher ground,
No I don't wanna hear the sound of the world crashing down,
You can't get to me this time,
I'm sick of you now, oooww oooww
I'm sick of you now, owwwV2I'm just not gonna do this,
you're killing me slow, oh oh
not gonna listen to this,
I'm letting go,Could it be true all is said and done,
could you be holding the smoking gun,
out of my head and my heart is numb(Chorus)No I don't wanna fight with you and watch you melt into the blue,
I'm not gonna drown drown drown, going to higher ground,
No I don't wanna hear the sound of the world crashing down,
You can't get to me this time
I'm sick of you now, oooww oooww
I'm sick of you now, owww
