Tell Me That You Love Me

Regine Velasquez

So far away on a cold, lonely night
If I could only hear your voice,
That, Id be alright
Tell me that you love me,
Tell me that you care
I just wanna hear your voice
Come flowing through the air
Telephones are lonely
Tell me youre alright
I just wanna feel you near
When I lay down tonight.Id give anything to see your face
Just to share the silence of your eyes
Your love is something no one can replace
and While Im gone I dont want you to cry
Please dont cry.Tell me that you love me,
Tell me youre okay
Telephones are lonely
It sounds so far away
Tell me that you need me
Tell me its alright
I just wanna hear your voice
When I lay down tonight.Id give everything to taste your kiss
Just to feel your body touching mine
It hurts me to be wanting you like this
So tell me that you love me one more time
One more timeTell me that you love me
Tell me youre alone
I just wanna hear your voice
Im so far from home
Tell me that you love me,
Tell me that you care
I just wanna hear your voice
Come floating through the air.Oh Tell me that you love me,
Tell me that you care
I just wanna hear your voice
Come floating through the air
Telephones are lonely
Tell me youre alright
I just wanna feel you near

When I lay down tonight.so far away...
