

# Miss You Love

[Maria Mena](#)

I've run out of complicated theories  
So now I'm taking back my words  
And I'm preparing for the breakdown Your t-shirt's lost its smell of you  
And the bathroom's still a mess  
Remind me why we decided this was for the best Because I miss you love  
I miss you love  
I miss you love  
I miss you love  
I miss you love I know the distance is a factor  
But I stretch as often as I can  
My goal's to reach your hands any day now Please don't blame me for trying  
To fix this one last time  
I have a hard time as it is Because I miss you love  
I miss you love  
I miss you love  
I miss you love Don't act like you don't know me  
It's still me, I've never changed  
I'll be here when you come back And I miss you love  
I miss you love  
I miss you love  
I miss you love I miss you love  
I miss you love  
I miss you love  
I miss you love
