

# Bigger Than Both

## Tonic

Make up your mind, choose and bear it  
If you lose, you can't share it now  
Your indecision is self-destruction  
A little window in your dysfunction now

But you said, you said you want it  
You say, you say you want it  
I say

I know, I know  
It's bigger than both of us  
And I trust in this  
To help me understand  
I know, I know  
It hurts you like you say

But you said  
You say, you say, you say you want it  
You say, you say, you say you want it

When was this about the institution  
You beat yourself until there's no  
Solutions now  
It go so bad, you can't see it  
You're in so far, you can't leave it now  
But you say, you say you want it  
You say, you say, you say you want it  
I say

I know, I know  
It's bigger than both of us  
And I trust in this  
To help me understand  
I know, I know  
It hurts you like you say

But you said  
You say, you say, you say you want it  
You say, you say, you say you want it

You say, you say, you say you want it  
You say, you say, you say you want it  
I say

I know, I know  
It's bigger than both of us  
And I trust in this  
To help me understand  
I know, I know  
It hurts you like you say

When you say  
You say, you say, you say you want it  
You say, you say, you say you want it
