

# Superhero

## Collapsis

I think I know who you are  
From the way you see right through me  
I think I know who you were  
I think you said that you had feelings Yet, nothing in this world ever stopped you  
Nothing in this world ever brought you down to where I am  
Yeah, it's always the same and you don't anyway  
And you won't anyway 'cause you don't really care I think I know who you were  
I think you said that I had problems  
I think I know who you are  
The way you turn green and get angry Yet, nothing in this world ever stopped you  
Nothing in this world ever brought you down to where I am  
Yeah, and it's always the same and you don't anyway  
And you won't anyway because you don't  
But if I need a superhero I think I know just who I'll turn to I'm here in case you're holding on  
I'm here in case you're holding on  
I'm here in case you're holding on  
I'm here in case you're holding on Nothing in this world ever stopped you  
Nothing in this world ever brought you down to where I am  
Nothing in this world ever stopped you  
Nothing in this world ever brought you down to where I am And I'm here in case you're holding on  
I'm here in case you're holding on  
I'm here in case you're holding on  
I'm here in case you're holding on
