

# Stuck In My Car

## The Go-Go's

Somewhere the sun is shining  
Somewhere the moon is rising  
I'm sitting hereSomewhere someone is laughing  
Somewhere something is happening  
I'm dying here  
Let's go, let's goStuck in my car, trying to get to you  
Stuck in my car, nothing I can do  
Turn the radio up and scream along  
Stuck in my car, stuck in my carSlow motion disaster, wish I could go faster  
I'm standing still, I know the world is spinning  
But it never brings me any closer, closer to you  
Let's go, let's goStuck in my car, trying to get to you  
Stuck in my car, nothing I can do  
Turn the radio up and scream along  
Stuck in my car, stuck in my car  
Come on, come onOoh, get me out of here  
Ooh, I gotta go, I gotta go  
I gotta go
