Wild Man

Ricky Van Shelton

Running down the road same old, same old
Oh, I know it so well I think I can drive and fly
Im steady as a wall but underneath it all
Im gonna blow the roof off one of these nightsI cant deny that somewhere inside theres a wild man
Mama always said, "Son, dont you let it get out of hand"
If I go crazy now and then baby, youve got to understand
Oh, Im a wild man, yeah, thats what I am, Im a wild manComing through the door I know what its all for
Why Im walking the line as far as the line will go
Wound up so tight but I know tonight
I dont have to hold back when Im holding you closeI cant deny that somewhere inside theres a wild man
Mama always said, "Son, dont you let it get out of hand"
So if I go crazy now and then baby, youve got to understand
Oh, Im a wild man, yeah, thats what I am, Im a wild man
