

# Suicide Love Song

## Astorian Stigmata

If I drink all your blood then you'd probably die  
But in our sickly twisted love it'd be alright  
1-2-3 I know you'll sing it with me  
This is our Suicide Love Song

We kick and we punch when we're getting along  
Cause we got a love worth fighting for  
I laugh instead of cry when you knock out my eye  
Cause you put it back in nicely  
We're not crazy

(Chorus)  
All my life  
I dreamed  
That I'd meet somebody like you  
And here we are  
Just me and you  
I won't fuck it up  
I won't fuck it up

And all my life  
I dreamed  
I can be somebody like you  
And all of my days left  
On this earth  
Belong to you

Real love ain't like the kind you wish for  
It's like living a dream you never had  
We don't buy rings and flowers or things  
Cause we're not faking

I hate you just as much as I love you  
Cause your my everything  
I don't care if you get fatter  
Cause that doesn't matter  
When we got a Suicide Love Song

All my life  
I dreamed

That I'd meet somebody like you  
And here we are  
Just me and you  
I won't fuck it up  
I won't fuck it up

But when the happiness becomes only mine  
And trouble get's easy to find  
I'll chase it away, I give you my word  
I won't fuck it up  
I won't fuck it up  
You'll see my darling

And this is not a prohepcy of things that yet to come  
Cause when you are young  
When you are young  
You don't think you'll fuck it up  
You won't fuck it up

---
