

Too Little Too LateÂ

Michelle Shocked

Too little too late

Don't you tell me how it used to be

I've seen the record and it clearly reads 'To date'

Too little too lateToo little too late

Don't you talk about the way things was

Bringing roses and turtledoves don't rate

Too little too lateI should have known that it was now or

Never but good things come to those who wait

When nothing came but the eleventh hour

I said honey, I'm taking the liberty to liberate myselfAnd now I'm taking the liberty to liberate myselfToo little
too late

Then was then but honey, now is now

If I don't call then you can just learn how to wait

Too little too lateToo little too late

Too little too late

Too little too late

Too late
