

# Monkey See, Monkey Do

## RiceRokit

[intro]

[laughing]

Ay yo 50

What i tell you

We aint even have to say shit

They did it

[laughing]

[chorus]

Monkey see monkey do

Dont ever make the first move

Just let em' come to you

Cause they always gunna see and do what the other one do

So let em' come to you

The rest of us follow suit

Monkey see monkey do

Tweedle-de-tweedle-dum

If they really want it bad enough well then they gunna come

Now here they come as we expected now we just set em' up

Check-mate motherfucker

Games over

We won

Tweedle-de-tweedle-dum

It doesnt take much

For me to raise such a stink up

When motherfuckers hate your guts

You aint even gotta say much

For me to put a pen to a blank sheet of papers

Like smearing blood stains with a paint brush

I cant explain what it is my brain does

But however it works its insane

Its plain nutz

And it aint just my brain thas dangerous

Its a whole combination of things

It takes nutz

And im not affriad to raise the stakes up

I got a million bucks in the banks and 8 trucks

For anybody who gets on the track and spansks us

Im patiently waiting for the day

Im anxious

To see the look on ya fake mugs  
When you thugs go bankrupt  
Ya drunk  
Ya aint tough  
Whatever you drank musta just turned ya into some gangstas  
This is me talking motherfucker  
This aint drugs  
You wanna pop, shit wake-up, then make-up  
FUCK THAT  
Its too late chump now face up  
I pray for the day that someone who spits with the caliber that nas and jay does  
Opens up his jaw to say something or rattle my name off  
Or rattle the first thing from the top of his brain off  
So i can blow the fuckin dust off of this chainsaw  
  
And give him the surgery that he came for  
Till i pull the paint off  
I never been shot  
But i think me and 50 musta been cut from the same cloth  
Cause ive always came off  
Like ja's chain  
When they try to rush him and lost  
And came back and gave him a watch in exchange for it  
I dont stop  
The only thing i wait for  
Is day that i dont gotta report to probate court  
Cause ima give ya all the reason to hate more  
Cause ive been holding my tounge till i got a sprained jaw  
Alot of rappers on my list that just aint ja  
And ima read that motherfucker off from april  
You pussies think i went soft since 8 mile  
When i come back ill be shootin more than just paint balls  
Trust me  
[chorus]  
Monkey see monkey do  
Dont ever make the first move  
Just let em' come to you  
Cause they always gunna see and do what the other one do  
So let em' come to you  
The rest of us follow suit  
Monkey see monkey do  
Tweedle-de-tweedle-dum  
If they really want it bad enough well then they gunna come  
Now here they come as we expected now we just set em' up  
Check-mate motherfucker

Games over  
We won  
Tweedle-de-tweedle-dum  
[outro]  
Fuckin dummies
