

All Night Long

Brian McKnight

Shit just ain't the same when you slide through it
I get distracted every time you in my view
Plus I hear you kinda single right now, boo
And I got a perfect spot for a tattoo
I get ya name more than once if I have to
Me and you are better classic than Bayou
'Cause I got a few places you can fly to
Bring ya partners 'cause you know I'm bringin' my crew
Girl, don't you walk on by
We're not leavin' one more time
'Cause shorty's got her back to me
Show me what you got for me
Watch you move from side to side
Lick your lips, then close your eyes
Like something from a fantasy
Good for you and good for me, girl
So we can talk about the things you want
Or we can talk about the things you like
Girl, I don't just talk to hear my lines
You've heard it all a thousand times, girl
And we can talk about takin' it slow
And we can talk about takin' our time
Girl, how can I get you in my ride?
Who's gonna drive you home tonight, girl?
Baby, let me love you
All night long, all night long
Baby, let me please you
All night long, all night long
We can take a ride in my ride
We can get it on outside
Hit it off like, 1 2 3
The moon and stars is all we need
Then we can take it back to my crib
We don't have to say that we did
No one knows that we just met
What you see is what you get
So we can talk about the things you want
Or we can talk about the things you like
Girl, I just don't talk to hear my lines
You've heard it all a thousand times, girl
And we can talk about takin' it slow
And we can talk about takin' our time
Girl, how can I get you in my ride?
Who's gonna drive you home tonight?
Baby, let me love you
All night long, all night long
Baby, let me please you

All night long, all night long Oh baby, whenever you say
We can be out, I'm not in a hurry, ma
But we can go now
There's so many ways
We can get down
I'm gonna give all the lovin' to ya
Oh girl I wanna be your stability physically, finance, and mentally
If willing I'll be fulfilling anything you reveal to me
Like ya fantasies, ya dreams, peaches and cream
Baby, you pick, I lick, that's the thing
Time don't mean a damn thing in this case
So unplug the clocks and close the drapes
I got it all planned out, me and you goin'
Until we both scream ow, we both pass out So we can talk about the things you want
Or we can talk about the things you like
Girl, I just don't talk to hear my lines
You've heard it all a thousand times, girl And we can talk about takin' it slow
And we can talk about takin' our time
Girl, how can I get you in my ride?
Who's gonna drive you home tonight? Baby, let me love you
All night long, all night long
Baby, let me please you
All night long, all night long Baby, let me love you
All night long, all night long
Baby, let me please you
All night long, all night long Baby, let me love you
All night long, all night long
