

Separated Hearts

Zilos

Lay beside me
Feel your heartbeat standing still
It's inviting
Wanting somewhere to belong

This could be real
Or could it be a dream
This could be right
Wait and see
I'll do anything to find you
Burn each city to the floor
I won't stop until I've found you
Or 'til my heart won't beat no more

Hear you calling
Wondering how it went so wrong
Tears are falling
Screaming out to fade the pain

This could be real
Or could it be a dream
This could be right
Wait and see
I'll do anything to find you
Burn each city to the floor
I won't stop until I've found you
Or 'til my heart won't beat no more
