

# I Don't Want to Change

## The Diamond Underground

I dont want to change the skin frames  
But it is draining my mind  
And the doctor says that its okay  
But hes no damn Jesus Christ  
Because hes watching me all of the time  
Makes me so paranoid  
And theres a right way they all say  
Its not like I have a choiceChorus  
Give me one more day to change  
And I will make it okay  
Ill leave the porno queen to stream  
And I will try to come cleanI dont want to change my old ways  
But it is straining my eyes  
And my lady says that its okay  
But shes just trying to be niceNote: A song about pornography
