Good Love

The Last Goodnight

I can be your sunny day
The one who keeps your troubles away
I'm your one and only and when you're feeling lonely
I can wipe the tears from your faceAnd everything is everything
You're everything to me, woah
And everything is waitin' round the corner
You're the world under the covers, stay with meLet's talk about good, good love so hard to find
It's a good, good thing gotcha by my side
You're everything to meLet's talk about good, good love, are you getting enough?
It's a good, good thing that you're all that stuff
You're everything I need, everything I need
Talk about good, good loveI can feel you coming my way
I think about you everyday
I cannot remember ever feeling better
I just want you here to stayAnd everything is everything
You're everything to me, woah
And everything is waitin' round the corner
You're the world under the covers, stay with meLet's talk about good, good love so hard to find
It's a good, good thing gotcha by my side
You're everything to meLet's talk about good, good love, are you getting enough?
It's a good, good thing that you're all that stuff
You're everything I need, everything I needAll day long you're on my mind
I can't wait to see you tonight and be alrightLet's talk about good, good love so hard to find
It's a good, good thing, gotcha by my side
You're everything to meLet's talk about good, good love, are you getting enough?
It's a good, good thing that you're all that stuff
You're everything I needTalk about good love
Let's talk about good love
You're everything to meTalk about good love
Let's talk about good love
Talk about everything I need, yeah
