

# Just For Tonight

## One Night Only

Way across the planes  
The lights spell out a code  
No one knows where they take us  
But we'll search till we grow old  
All the paths they lead  
To a single solemn place  
Then we'll stay for the weekend  
And leave without a trace  
Just for tonight  
Just maybe we've made it  
Sing like you want this  
We can take tonight  
Take our time  
So sing like you need this  
And be who you want to  
All the paths they lead  
To a little standing place  
If you stay for a weekend  
You'd leave without a trace
