Find Me

Hilary Weeks

I tucked the pain away
So deep that no one else could see it
I guess I believed
If I buried it I wouldn't have to feel it
I tried to run
I tried to hide
But the shadows seemed to follow me
Lord, won't You please
Find me
In my hidden places
Come find me
Even where the shadows hide
Strike a match
Bring a torch
Illuminate this deep divide
And find me
I've tried a hundred times
To find my way out of the darkness
But every road I took
Was leading me right back where I started
A place too deep
Somewhere too far
I'm in desperate need of rescuing
Lord, won't You please
Chorus
