

# Find Me

## Hilary Weeks

I tucked the pain away  
So deep that no one else could see it  
I guess I believed  
If I buried it I wouldn't have to feel it  
I tried to run  
I tried to hide  
But the shadows seemed to follow me  
Lord, won't You please  
Find me  
In my hidden places  
Come find me  
Even where the shadows hide  
Strike a match  
Bring a torch  
Illuminate this deep divide  
And find me  
I've tried a hundred times  
To find my way out of the darkness  
But every road I took  
Was leading me right back where I started  
A place too deep  
Somewhere too far  
I'm in desperate need of rescuing  
Lord, won't You please  
Chorus
