Together, Forever, Always

LeAnn Rimes

Life can put distance between us
Days even years could pass on
But the love that lies between us
Will always be worth holding onTogether, forever, always
From the dawn 'til the end of each day
No matter how far away you are
We're together, forever, alwaysI could try to forget you
But the memories keep lingering on
And the dreams I dream about you
They always keep me holding onTogether, forever, always
From the dawn 'til the end of each day
No matter how far away you are
We're together, forever, always
