Mindbender

Trouble

May I have your attention please?
I need a couple of volunteers
Today's the day that we will be
Clearing up all your fear
So look into my eyes
Are you getting sleepy?
The sings say it won't be long now
Spirits are everywhere
With every passing moment
Heaven is over here
Hell is only a state of mind
All things of this Earth
Are yours to find
As silence of a pale dawn
Begins to pass me by
Good morning be upon us all
Till the day I die
May I have your attention please?
I need a couple more volunteers
Today's the day that you will leave
With everything you need
You will wake up to a count of three
There is no more pain, just you and me
As silence of a pale dawn
Begins to pass me by
Good morning be upon us all
Till the day I die
