Metalizer

Sabaton

We live for the magic in the sound
Distorted guitars are breaking ground
The drum pounding faster than my heart
The vocals are screaming extreme art
The passion for metal drives us forth
The best heavy metal comes from the north
The powerful tunes, spectacular shows
The audience screams in ecstasyMetal, Metal
Back with a vengeance
Metal, Metal
All that I need is heavy metal
Metal
Screaming together
Metal, Metal
Metal is all that I needWhite hell bends for leather we stand strong
A rocker can party all night long
The school couldn't teach us rock 'n' roll
The school couldn't help us reach our goal
We live for the magic in the sound
Distorted guitars are breaking ground
The powerful tunes, spectacular shows
The audience screams in ecstasy
