Sunset Black

I'm too tired
I can't sleep
I'm too down
I'm too weak
I've been burnt out here for way too long
Anything is everything
We're all the same here
Brought between this endless game of fearBut what did I do
And where did I go wrong
We're breaking down in here
What did I do
And where did I go wrong
We're breaking downSo IStand between this on end
We're giving in to this again
We've come this far to not back down
We won't let this sink inNot now
Not then
Not nowWe're coming over from this again
We're starting to push ourselves to the end
And if we try more just than we see
I'm sure to beat the odds with meSo let this replayBut what did I do
And where did I go wrong
We're breaking down in here
What did I do
And where did I go wrong
We're breaking downSo IStand between this on end
We're giving in to this again
We've come this far to not back down
We won't let this sink inNot now
Not then
Not now
