

When You Were Made

The Growlers

No, they're not in love anymore
They are stuck and afraid
Don't worry babe
Don't get too down on yourself

They were in love, when you were made His old boots finnaly wore out
And the fire in his belly faded
Her supple breasts sadly sagged

As her tender heart grew jaded A life of love is a long time
When you know that it's only one time
You were the reason they stuck around
But you're old enogh now
Don't worry babe
Not 'till you've been there too

Will your world be less cruel The cold truth finally seeps through
Until your memory saturated
Your fragile smile looses teeth and
Your sparkling eyes grew faded A life of love is a long time

When you know that it's only one time The good is not so hard to forget
Though it seems far away
Don't worry babe
Don't get too down on yourself

They were in love, when you were made
A life of a love is a long time

When you know that it's a only one time A life of love is a long time
When you know it's only one time
