

Give Me All Night

Carly Simon

I have no need of half of anything
No half time, no half a man's attention
Give me all the earth and sky
And at the same time add a new dimension
Half the truth is of no use
Give it all, give it all to me
I can stand it
I am strong that way
Give me all night
Give me the full moon
And if I can't take the whole of you
Give it to me anyway
Give me all night
Till the last star fades
And if you can't take my heart and soul
Take it from me anyway
Don't give me fountains, I need waterfalls
And when I cry my tears'll fill an ocean
The pain of love I'll accept it all
As long as you'll join me in that emotion
'Cause half of lovin' is no fun
Give it all, give it all to me
I can stand it
I am strong that way
Give me all night
Give me the full moon
And if I can't take the whole of you
Give it to me anyway
Give me all night
Till the last star fades
And if you can't take my heart and soul
Take it from me anyway
Take all night away, away
Don't leave me guessing alone
Don't walk me half the way home
You can do that tomorrow
Just give me, give me all night
Give me all night
Give me the full moon
And if I can't take the whole of you
Give it to me anyway
Give me all night
Till the last star fades
And if you can't take my heart and soul
Take it from me anyway
Give me the full moon
And if I can't take the whole of you
Give it to me anyway
Give me all night
Till the last star fades, yeah
Take it from me anyway
Give me the full moon
And if I can't take the whole of you
