

My Death

Moke

There's a sign carved deep
In the palm of your hand
There's a birthmark craving
On the left side of your heart

Your life was forever structured
Composed and eternally given
[Incomprehensible]

[Incomprehensible][Incomprehensible]Into your glory of emptiness

I send my life forceMy death, my deathBe death with me
Be death with me
Death with me

Death with meMy deathOdium humani generis
Odium humani generis
Odium humani generis
Odium humani generis
