

# Losing You

## Aquilo

What I have in me  
In my mind is you  
I would die if we were through  
What I'm feeling now  
What I'm heading into  
I am lost in pain without you  
(So cold, so alone)  
All I have is you  
It is all that I'm breathing for  
All I need is you  
Now I can't make it through  
All the nights I've prayed  
Must this all be untrue  
I am not prepared to be strong  
I just can't believe  
I am losing you  
Unprepared to carry on  
I can't see you walk away  
(So cold, so alone)  
All I have is you  
It is all that I'm breathing for  
All I need is you  
Now I can't make it through

I am losing you forever  
I am lost in pain without you  
I am leaving ground forever  
(Forever)  
Distant, so far, destiny is selecting me  
I can't be strong, life is disconnecting me  
Now loneliness infecting me,  
Gone are the days, you were there, protecting me  
(So cold)  
So alone  
All I have is you  
It is all that I'm breathing for  
All I need is you  
Now I can't make it through  
I am losing you forever

I am lost in pain without you  
I am leaving ground forever  
(Forever)  
All I have is you  
It is all that I'm breathing for  
All I need is you  
Now I can't make it through  
(It is all that I'm breathing for, breathing for, breathing for)
