## Filter

They just keep swallowing us  
They just keep hustling us  
They just keep beating us down  
DownThey just keep holding us back  
Wished I could just see the attack  
They just keep beating us down  
DownIts time we took up a stand  
Take a wrong out of our hands  
Cause I know we just don't realize[Chorus]  
Whats next  
Look what they've done to us  
They don't know who to trust, oh  
Whats next  
Its just so meaningless  
Wish I was simple and bliss, ohTake the soldiers and put them in sand  
Put the child right in from the man  
It's not hard to get swallowed up  
George Bush is fucking us up  
See that the lies that he has sewn  
Wash us up and he has done  
Wash us up and he has done  
This time he has taken his hits of this thinkin'[Chorus][Repeat x2]  
They just keep swallowing us  
We don't know who to trust[Repeat x4]  
They just keep swallowing us  
We've got each other to trust[Chorus]
