

# I Don't Wanna Go Home

## Black Lips

I don't wanna go home  
I wanna stay until the sun is bright  
well, I'm never acting grown  
I'm gonna do what makes me feel alright  
Now I'm turning off my phone  
I've heard it all and I don't wanna fight (Take a horse, just get us through the outsides of Rome)  
Crash on dirty couches, eating breakfast off the flo' (floor)  
slowly serving strangers in a place I hardly know  
I can't find the hotel, they're all gone, I'm here all alone  
I don't wanna go home  
I really wanna stay with you tonight  
sick of sleeping all alone  
I know it's late, but it's cold outside  
I can see the light's aglow  
the door is shut and it's locked up tight (Take a horse, just get us through the outsides of Rome)  
Crash on dirty couches, eating breakfast off the flo' (floor)  
slowly serving strangers in a place I hardly know  
I can't find the hotel, they're all gone, I'm here all alone I don't wanna go home  
The sun is up and it's way too bright  
and I'm sick of being stoned  
my head is spinning and my face is white  
gonna hollar at the phone  
I've had enough, I think my brain is fried  
(Take a horse, just get us through the outsides of Rome)  
Crash on dirty couches, eating breakfast off the flo' (floor)  
slowly serving strangers in a place I hardly know  
I can't find the hotel, they're all gone, I'm here all alone
