Visit

Norken

He wouldn't say he cared at all if you asked him
You're heading for a fall brother, it goes right past him
In another world, he's in another place
You know the need for speed's just another form of greed
But when your Jones and your brains frozen
You're not thinkin' 'bout the choices you're makin'
You're just rollin' on and on, it's anybody's guess
'Cuz no one's at the wheel, at the front of that mess, yes
The sun is goin' down for me, it's goin' down for me
He and she are what I need, yes, they're what I need
But I'm gonna buy a ticket, I'm not gonna even pick it
I heard it, he said it, I heard it, but it went, but it went, something like
Visit, I wanna visit the world
So now I visit the world
With my time on this world
Because livin' when you're hungry is a dog in an alley
Now I mind my business 'cuz I'm rhymin' down in Cali
I ain't playin' when sayin', kings of the ghetto feel they losin' ground
Vato's goin' loco because everyone's brought down
This is a visit, then we dead, fade to dust stricken
I'm wearin' my Doc Martens 'cuz I'm always down for kickin'

This, my friend, the city pity, everywhere the enemy
Ready or not homey stompin', everyone in front of me
Jump up and down 'cus that's the 311 style
Cruise on by the frowners, float, follow me now with a smile
Lookin' at the ocean I see there's plenty
Lookin' at the river I see there's plenty
So visit, I wanna visit the world
So now I visit the world
With my time on this world
Jump up and down 'cuz that's the 311 style
Cruise on by the frowners, float, follow me now with a smile
I got a golden ticket, I'm not gonna even pick it
I heard it, he said it, I heard it but it went, but it went, something like
Visit, I wanna visit the world
So now I visit the world
With my time on this world
Visit, I wanna visit the world

So now I visit the world
With my time on this world
