

# Echo Park

[Ximena Sariñana](#)

Walkin' with you down through Echo Park

The ghosts fillin' the trees

The fire never understands the spark

The way it is with you and me

Freedom

Freedom

Our love won't fade away

Freedom

Freedom

Our love it won't fade away

The children runnin' through the greenest field

The light of love pourin' down

And only you and I know how it feels

When no one else is around

Freedom

Freedom

Our love won't fade away

Freedom

Freedom

Our love it won't fade away

Freedom

Freedom

Our love won't fade away

Freedom

Freedom

Our love it won't fade away

Walkin' with you down from Echo Park

The ghosts fillin' the trees

The fire never understands the spark

The way it is with you and me
