Sing Over Me

Bebo Norman

Find me, where You can find me
So tired of hiding behind these songs
And take me where You will take me
Back to a place I've known all alongThe voice that calms the waves, sing out
And call my nameAnd sing over me, sing over me
Sing above the noise that I've been making
And sing over me, sing over me
All I ever needed was to hear Your melody
All I ever needed was to hear Your melodyWake me, come on and wake me
So tired of living like I'm asleep
And hold me the way You hold me
How You unfold all this unbeliefThe voice that calms the waves, sing out
And call my nameAnd sing over me, sing over me
Sing away the silence that is breaking
And sing over me, sing over me
All I ever needed was to hear Your melody
And all I ever needed was to hear Your melodySing out, sing out, sing out my love
Sing out, sing out, sing out my love
And sing out, sing out, sing out my loveAnd sing over me, sing over me
Sing above the noise that I've been making
And sing over me, sing over me
All I ever needed was to hear Your melodyAnd sing over me, sing over me
Sing away the silence that is breaking
And sing over me, sing over me
All I ever needed was to hear Your melody
All I ever needed was to hear Your melody
All I ever wanted was to hear Your melodySing, sing out my love
Sing
