

So Long (Album Version)

No Motiv

Leaving behind the worst
my ship sets sail today
Heads up here come the words
I have now to say
Just trying to make the best of a good time
I taking control of my life
So long, so long?I don't belong
I leaving right now and not coming back
Too long, too long?been dragging it on
Ie got to stay sane on the right track
Miserable everyday
I finally saw the light
I going all the way
the feeling is so right
Just maybe on my own I can find out
right now what life is all about
So get on the right track
